Charging Cradles

for Galaxy XCover7 Pro Smartcase

Customized Charging Solutions for XCover7 Pro Smartcase

Using a Smartcase with your Samsung Galaxy XCover7 Pro? KOAMTAC offers charging solutions designed specifically to work with the Smartcase, so there's no need to remove it before charging. The modular design allows you to configure the cradles to match your charging needs, whether adding slots for Extended Battery Packs, additional devices, or both.

Charging Cradles

for Galaxy XCover7 Pro Smartcase

Well-Equipped

KOAMTAC Charging Cradles for the Samsung Galaxy XCover7 Pro with Smartcase support Adaptive Fast Charging (AFC) and offer the flexibility to charge via USB Type-C or DC connector depending on configuration. The modular design allows you to customize the setup with slots for spare Extended Battery Packs, additional XCover7 Pro devices with or without Smartcase accessories, or a combination of both.

Flexible Configurations

The cradles are available in 1-slot, 2-slot, 5-slot, and 10-slot models, with additional options for charging Smartcase Extended Battery Packs. All versions support simultaneous charging of XCover7 Pro devices and Battery Packs where applicable. The system is also compatible with Smartcase accessories including the Belt Clip and Hand Strap.

Secure & Convenient

The XCover7 Pro charges without needing to be removed from the Smartcase, securely docking into the cradle via durable pogo pins. This design reduces wear on the device's ports and ensures reliable power every time.

Upgradeable & Future-Proof

A modular spacer system keeps your charging solution ready for future device upgrades. When switching to the next-generation XCover smartphone, simply update the spacers instead of replacing the entire cradle. This thoughtful design helps reduce electronic and plastic waste while protecting your long-term investment.

Charging Cradle Details

LED Indicator
OFF: Power Off, Ready to charge
Green: Fully charged
Orange: Charging
Blinking Orange: No spacer
Blinking Red: Charging error
Blinking Green & Red: Ready for firmware upgrade (1-Slot only)

Weight
1-Slot: 0.56 lbs (245 g)
